SUMMARY

Experienced Frontend Developer with a proven track record of designing and implementing visually stunning, user-friendly, and responsive web applications. Proficient in modern web technologies and frameworks, I excel at collaborating with cross-functional teams to deliver high-quality solutions that enhance user experiences and drive business goals.

PROFESSIONAL EXPERIENCE

Frontend Team Lead

HUGS International | January 2022 - Present

- Led a team of 7 engineers and 2 product designers, overseeing code review and optimising team members' tasks for improved efficiency and quality.
- Collaborated closely with cross-functional team members to maintain and enhance product functionality, resulting in an enhanced user experience.
- Successfully implemented Frontend codebase optimisation, resulting in a notable 30% reduction in the product's Time To Interactive (TTI).
- Revamped interactive elements, leading to a remarkable 25% increase in user interactivity and engagement with the product.
- Spearheaded the development of a comprehensive in-app messaging service, streamlining communication channels for improved customer interactions.

Full Stack Developer

Golden City Model Management. | July 2022 - 2023

- Designed and implemented an efficient administrative interface, enhancing data management and streamlining operations.
- Spearheaded the development of the agency's MVP website, establishing a robust foundation for online presence and engagement.
- Ensured high performance and future scalability by implementing industry-recognised coding practices and optimisation techniques.
